

WELCOME TO LUTHER HEIGHTS CANOE ADVENTURE CAMP

Information for campers in canoe programs and their parents

Is canoeing hard work? Yes, the canoeing will challenge you physically. But the pace is not intense nor is the distance to be covered a long way. The trip is not designed simply to “push you to your limits”. We want you and everyone else to taste the delights of living in community in the beautiful mountains of Idaho!

At the start, you may develop some sore muscles and find it takes time to adapt to the higher altitudes. You can expect to do a fair amount of canoeing or hiking (up to 4-6 hours some days). The trails experience doesn't need to exceed your abilities. Indeed, it can be wonderful! As you will discover in many ways, “roughing it” does not have to mean “without class”!

The only **people who should not** be in the Canoe Adventure Camp are those who have physical disabilities that interfere with walking (for example, a “trick knee” that “goes out” from time to time), or their ability to paddle a canoe, or who are unable to carry the extra weight of a pack (perhaps because of a “bad back”), or who are seriously overweight, or who are not interested in a more “primitive” camping experience away from modern conveniences.

When you arrive at Luther Heights, you will spend the first night at Camp, for **packing-out and orientation** to life in the wilderness. You'll learn how to set up and take care of your tent (which you most likely will stay in that night). You'll be briefed on safety and low-impact camping procedures (water treatment, group hiking, camping in bear country, latrine procedures, health care, etc.) Your group will leave the next morning after completing your packing-out.

Also after you arrive, you will go through a brief **health screening**, where our health personnel will go over your Health Form with you, and discuss any special needs you may have. You will need to turn in any **medications** you take with you to camp. Following the accreditation standards of the American Camping Association, Luther Heights must have all medications (including non-prescription ones) under the control of your counselor.

While you're out in the wilderness, you'll be learning to **know yourself** better, and to reflect on your abilities, your goals, and your calling. You'll be **part of a community** where everyone matters. You'll become involved more deeply in **caring for Creation**, by developing a sense of life with minimum impact, and perhaps by sharing in some trails work and rehabilitation projects.

We also hope that camp will help you grow in your **faith**. You don't have to be a Lutheran to be at Luther Heights - you don't even have to be a believer. But the faith shapes our life together. We **worship** together at the beginning and end of every day. We take time each day to study the **Bible** together. We usually have daily **Quiet Time**, so each of us can have a brief chance to be alone with the Word before God. And there are all kinds of unscheduled times where we find our faith deepened.

HOW DO YOU PREPARE?

By praying. By planning to share yourself with others. By committing yourself not only to your own needs, but to the needs of others. And by physical activity that increases your stamina.

Brisk walking, jogging, bicycling, swimming, or other activities that increase your heart rate for a sustained period of time, are best. If you haven't been too active recently, start slowly, and increase the time you spend with these activities. Try to work up to doing them for at least thirty minutes a day, three or more times a week. Make sure you stretch out your muscles before and after your training periods. Start several weeks before you come to Luther Heights, or even several months. It will all help you be better prepared for hiking in the mountains.

OTHER INFORMATION

Emergencies. Messages can usually be carried to the group within a day when necessary. Emergency evacuation can be done in roughly the same time span, or by a helicopter when there is a life-threatening injury.

Insurance is carried on all campers as secondary coverage. It will cover medical expenses resulting from accidental injury (up to a maximum of \$2,500). The \$50 deductible on each claim must be covered by a camper's family.

The **Canteen** has on sale T-shirts and sweatshirts (about \$10 - \$35), postcards, stamps, limited film, maps, fruit, candy, pop, etc.

Because the rivers, lakes and streams in the area of Luther Heights are very cold and swift moving, **swimming** is limited and a certified lifeguard must always be present.

PACKING FOR LUTHER HEIGHTS CANOE ADVENTURE CAMP Information for campers and their parents

PACK LIGHT, BE PREPARED

Take special care as you prepare. You don't want to carry and pack any more than you need. You'll be carrying not only your gear, but food and equipment for the group.

On the other hand, once you're out in the wilderness, you can't run back home to get something you wish that you had taken. Because you face a wide range of weather conditions, you need to be prepared for both warm and cold, both wet and dry.

So as you pack, think carefully: **do you really need it? Will you be unprepared without it?** Keep in mind the Three Virtues of trails gear: **light weight** (the pounds add up quickly), **low bulk** (there's only so much space in your pack), and **multiple use** (whenever you can use something for more than one purpose, you've saved yourself some weight on the back).

Luther Heights provides you with a tent, and gear needed for the group (food, cooking utensils, bear bag, rope, maps, stoves, etc.) You need to provide your own personal gear (see list on the other side).

Two people will be in each canoe with their personal gear as well as community supplies in the middle of the canoe. Two Luther Heights staff who are trained in Wilderness First and waterfront procedures will travel with the group. At least one of the counselors will also be a Red Cross certified lifeguard. The group will be canoeing around Redfish Lake.

Schedule

Registration will be from 2:00-5:00pm on Sunday. The first night will be spent at Luther Heights and then you will start canoeing on Monday morning. Youth camps will return onsite on Friday morning and Mother/Daughter camps return on Wednesday. You will be camping around Redfish Lake. You may also be doing day hikes in the area around Redfish Lake so a good pair of Tennis Shoes is important. The group will return to Luther Heights on the last day in time for lunch and pickup is from 1:00-3:00pm.

FOOT GEAR

You should have **several changes of socks** with you. You may want to wear two pairs of socks when you are hiking. You may also want to have some old **sneakers** or similar footwear along, for crossing creeks and wearing at the end of the day when hiking is done.

Please bring a pair of sandals or old tennis shoes that you can wear in the canoe.

SLEEPING BAG AND PAD

You want a sleeping bag that is **as warm** as possible and **as light** as possible. While down bags are wonderful, they are very expensive. There are many bags on the market with special synthetic fibers designed for trails bags. Many now have temperature ratings that help you compare between various bags (but you probably won't stay warm down to the low temperatures they list...) Most "car camping" bags are generally too heavy to carry for the amount of insulation you get.

You'll probably also want a sleeping pad. This can be either closed-cell (like Ensolite), or open-cell foam. There are some fairly inexpensive ones available, as well as some more elaborate ones (like the self-inflating Thermarest). Again, light weight and insulating capacity are most important.

CLOTHING

Be prepared for extremes of weather. While we hope you have some warm sunny days, you might well have to face a sudden rainstorm or even a snowstorm. The nights generally get quite cool in the high country, some times near freezing. It's best to have clothing that you can put on in layers. Items insulate better that way, and can be removed in stages as you warm up. Many people prefer several wool items, since wool insulates even when it is wet. A stocking cap and gloves or mittens are wise additions to your gear (though in a pinch, you can wrap a shirt around your head and put socks on your hands).

A rain poncho or lightweight rain jacket is essential. The camp has a limited number available; but we don't have enough for everyone. So have your own, if at all possible.

PACKING

It's good to pack most of your items in small plastic bags or a 'wetbag', to help protect against wetness. You might also want a large garbage bag to use as a cover over your gear at night or in the rain. Plastic bags will also be available at the Camp. If you have a daypack to put some of your personal gear in, please bring it along.

WHAT TO TAKE TO LUTHER HEIGHTS
Check list for campers in canoe adventure programs at Luther Heights

This checklist reflects the experience of many backpackers, and should be helpful as you prepare to come backpacking at Luther Heights. Of course, this list is not “the final word” on what to have while you’re on the trails, since individual needs, budgets and preferences may vary. But please consider this list seriously.

Basic Equipment:

- Sneakers or tennis shoes
- Sleeping bag and stuff sack
- Sleeping pad
- Rain poncho or light rain jacket/pants

Clothing (be prepared for extremes of weather):

- Heavy socks
- Lighter socks
- Underwear
- Upper-body: (shirts/jackets/sweater/
sweatshirt/down vest) T-shirts are fine for warm weather, and are typical hiking wear. But have something for cool nights and nasty weather. Many prefer to have a wool shirt along. Consider combinations: windbreaker/sweater/T-shirt, or rainjacket /sweatshirt/longsleeved underwear/T-shirt, or jacket/down/vest sweater,etc.
- Hiking shorts. Most people wear shorts much of the time.
- Long pants for cold weather and to protect against evening mosquitoes. Jeans are O.K., though don’t provide much warmth when wet. Many prefer to have wool pants. Some prefer to have lightweight rain pants, and use them with long underwear. (Remember: multiple use.)
- Stocking cap, gloves & mittens
- Sandals
- Swimsuit & Towel
- Hat
- Fishing pole and license (if you want to fish)

Also Consider:

- Camera
- Foot Powder
- Lip protection (chapstick, etc.)
- Sunglasses/sun visor
- Lightweight water bottle
- Long underwear
- Pen or pencil (for journaling)
- Fishing gear

PLEASE DO NOT BRING:

Pets, Walkman’s, firearms/ammunition, hair dryers, Alcohol, Tobacco or other drugs, personal vehicles not be used during sessions, personal sport equipment unless approved by Director, firecrackers

Other Items:

- Mosquito repellent
- Sunscreen lotion. This is important! At higher elevations you are much more likely to get a serious sunburn.
- Small flashlight, extra batteries
- Toothbrush and toothpaste, biodegradable soap, comb, etc.
- Small towel and washcloth
- Kleenex, handkerchief, or bandanna
